Site Investigation and Support Section

Region III
Sixth and Walnut Streets
Philadelphia, Pennsylvania 19106

Dear Mr. Skernolis:

This is in response to NUS Corporation's submittal of a draft Addendum to the Field Trip Report for FMC Corporation. There are several points in this draft report requiring clarification.

Waste Management Administration has not received an Interim Report for this site and cannot make comparisons with this Addendum document.

This proposal makes no recommendations for concluding or expanding the site investigation. Before the report is finalized, we would like the opportunity to comment on the conclusions of the site investigation.

The Quality Assurance Review appears to invalidate the sampling analyses. Due to this fact, it is recommended that follow-up sampling be initiated with appropriate site investigation documentation.

If you should have any questions, please communicate with Mr. David Healy at (301)-659-2950 or myself at (301)-383-6650.

Sincerely,
